

JOE PAGE BRIDGE Construction Now Underway

Construction is underway on Joe Page Bridge and will continue through 2027. IDOT is investing \$22M to maintain the bridge in a state of good repair. This work will include daytime lane closures. During the initial phase, two-way traffic will be maintained using flaggers. Continuous daytime lane closures will continue through Friday, May 15.

Beginning Monday, May 18, two-way traffic will be maintained by temporary traffic signals.

The closures are necessary for bridge repairs, with work expected to be completed by June 30, 2027.

Motorists should expect long delays and are encouraged to use alternate routes during this closure. Drivers are urged to reduce speed, be alert for changing conditions, obey all construction signage, and refrain from using mobile devices while approaching and traveling through the work zone.

The Joe Page Bridge replacement project is still underway with Alternatives being refined. The current construction is to keep the bridge functional until a new bridge is built.
